

GLOBAL YOUTH LEADERSHIP PROGRAMS

PASSION + PURPOSE = CHANGE

YOUTH LEADERSHIP TRAINING TO BUILD CONFIDENCE, TEAMWORK SKILLS AND GLOBAL EXPERIENCE

DESIGNED FOR AGES 12 TO 18 YEARS OLD

ALL YOUTH ARE POWERFUL BUT HOW CAN THEY BUILD THE CONFIDENCE, SKILLS, AND EXPERIENCE TO REALIZE THEIR LEADERSHIP POTENTIAL?

Powerful Youth's unique and carefully designed leadership programs are created to help all youth, ages 12 to 18 years old, build important leadership skills connected to their future academic and professional success! These are **NOT** typical summer camps, since our programs are developed by expert leadership educators to be engaging and fun 2 and 3 week long training academies which include 6 months of additional online coaching to ensure real results are achieved with every participant.

Develop Teamwork and Leadership Skills

Real leadership skills come from more than just lectures and games. Developing effective leaders means that each participant will **learn**, **do**, and **review** their behavior after every individual and team project supported by our expert staff. Operated in partnership with **Brookes Education Group**, both our facilities and resources are absolutely among the best in the world for what many youth call "the best two weeks of their life!"

My experience at Powerful Youth's Global Leadership Academy was simply amazing! I never expected a program could challenge me and change my perspective of the world this much. This program made me wiser, more confident and realize my leadership potential."

- Dwayne G. Alumni

Build Critical Thinking Skills

Whether it's designing an innovative solution, supporting a charity organization's mission, or creating their own DREAM service project, participant's will build critical thinking skills through project based learning, design thinking, and real-time coaching all captured in their own digital portfolio they create and keep.

Self-Confidence

Meeting new people from different cultures can be both exhilarating and challenging at the same time, but having fun and accepting each other's perspective is critical for any global leader. Participants come from over 18+ countries and with a wide range of English language ability which makes the experience all the more realistic and global.

Make an Impact

Participants learn not only how to effectively lead others, but in the process, learn to create real change within themselves as well as within their communities. Each participant will actively complete 60 hours of meaningful service learning, which helps demonstrate their newly developed leadership abilities and serve as evidence of their expanding leadership potential. Their passion will drive a purpose for change!

LEADERSHIP = ACADEMIC AND CAREER SUCCESS

Leadership skills such as effective communication, critical thinking, and teamwork are soft skills that everyone need to succeed. Youth will continue to build these skills and others with 6 months of additional online coaching for 1 hour a month after they graduate.

LOCATIONS: CANADA AND ENGLAND

In partnership with Brookes Education Group, our programs are located on beautiful campuses in some of the most desirable, exciting and easy to access international locations such as Victoria, Canada and Bury St. Edmunds just outside Cambridge, England. www.brookes.org

WHAT MAKES OUR PROGRAMS DIFFERENT?

Every day participants practice different skills driven by our custom experience-based approach. Team challenges, service-learning trips, sports, artistic collaboration, outdoor adventures, inspirational speakers, and leadership development seminars result in lifelong learning and friendships. A unique graduation requirement is that each participant will design and try to lead their own D.R.E.A.M. service project supported by 6 months of online coaching. The results are successful projects that differentiate these young leaders when they apply to universities, scholarships and jobs!

What Participants Learn:

- Leadership and teamwork skills
- Communication and confidence
- Project planning tools
- Critical thinking and decision-making skills
- SMART goal setting
- Emotional intelligence and conflict resolution training
- Knowledge and experience working with different cultures

Day 10: "Learning Leadership Through Service"
Participants learn how leadership happens in real organizations by helping the Surfrider Foundation test and report pollution levels from local water sources to notify the government to help influence environmental policies.

What Participants Gain:

- Real accomplishments they can put on their resume
- A digital portfolio of their learning, work and projects
- 60 hours of documented service learning
- 6 months online coaching and access to mentors
- New and valuable friendships
- Practice reading, writing, speaking in English
